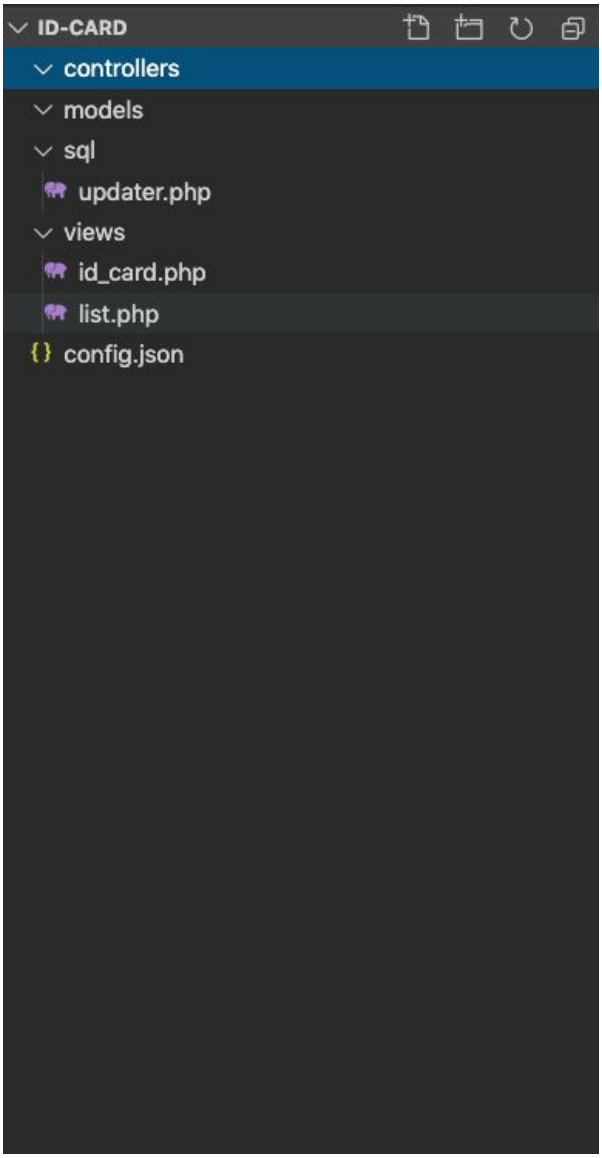
Source Code Structure:

We followed standard MVC structure within powerful Php Codeigniter framework to develop Ekattor.



Structure of MultiSchool Addon:

Controllers

- No controllers needed for this addon.

Models

- No models needed for this addon.

SQL

- **updater.php** : If an addon requires modifications on existing database this file comes to play the role.

Views

- **id_card.php**
- **list.php**

: These are the view files we used for this addon.

Config.json : This is the skeleton of an addon. It contains the core data. It also describes all the actions made during installation. So do not change anything here.
